

I purchased an XM radio for my house so that I could listen to radio broadcasts that are not available to me in Chicago. We have many stations in Chicago, but very few that appeal to me or give me access to the types of news and information that I want and feel that I am entitled to. I feel that the NAB has no right to dictate what I listen to or how it is delivered to me.

Keep the NAB out of XM's business and have them try to improve their own businesses.
